"The Community Foundation is one of the most empathetic, caring, and community-minded organizations there is."

—Honor Jones, Caregiver Support Initiative Steering Committee Member
Community Engagement + Action + Evaluation = Impact

In addition to its philanthropic work, the Community Foundation engages the community as a neutral convener, an educator, a collaborator, and a leader. There are three steps to creating impact:

1. Community Engagement
   Engaging our community is the first step in creating impact. We are a neutral convener and have a place for everyone who cares.

2. Action
   Community engagement is incomplete without action. Next, we gather our community to develop tangible solutions.

3. Evaluation
   Evaluation is the final step for measuring impact. What does the data show? The Community Foundation added evaluations to many community engagement activities in 2018. Now evaluation guides the process.

Below are some of the most impactful ways the Community Foundation led our community in 2018.

Thank you to our Fundholders, Donors, Board Members, Corporate Philanthropy Partners, and Volunteers who make our community engagement work possible!

“Thanks to a generous community, we are able to develop new resources, such as the Community Endowment Fund. We will continue to enhance the effectiveness of these resources by leveraging our connections and partnerships. True leadership means inspiring community engagement and we are very proud to be playing that role in Northern Nevada.”

- Chris Askin, President & CEO
